

## **A Motorbike in Pieces on a Kitchen Floor**

I am a motorbike in pieces  
I was so useful during my days  
I used to take people from village to town  
From home to hospital  
From home to school  
I am on floor  
I am dead today  
I am in pieces  
Kitchen floor has become my grave  
I need a doctor or a mechanics  
I need help  
I need help  
Please I can help again
